- B. Every effort shall be made by the school district to resolve problems through effective utilization of district resources in cooperation with the student and their parents.
- C. In cases of a suspension, a student must be given an opportunity for a conference if the student or the student's parents indicate the desire for one in writing, or appear in person to request such a hearing.

5. School Schedule Changes Due to Emergency Conditions

- A. Due to the complexity and size of the school district, it is very difficult to make a quick decision as to whether school schedules should be altered in case of inclement weather. Geographical considerations, large numbers of bussed students, early bus starting times, as well as difficulties in communicating with all individuals concerned must be considered in such a decision. The following procedures will maximize the information flow needed to make an early decision as to whether the normal schedule should be followed.
- B. Closing or delaying the start of school
 - i. On inclement weather days, the Transportation Department will check roads early in the morning to determine whether a delayed start of school is advised.
 - ii. The findings will be reported to the Superintendent who will make the decision to:
 - 1. Have school as scheduled
 - 2. Conduct a remote learning day
 - 3. Delay the bus schedule by two hours
 - 4. Delay, or cancel, one or more remote buses
 - 5. Close school altogether
 - iii. Every effort will be made to decide on delays or closures by 5:30 am when possible.
 - iv. The school messaging system will be implemented.
 - v. Radio and television stations will be notified.
 - vi. Delayed schedule will mean that all schools will be delayed 2 hours.
 - vii. Bus drivers will use extreme caution upon returning students home due to school delays, early releases, or closures.
 - viii. If conditions make it impractical for a bus to travel a route and students are brought to school by personal vehicle, it will be the responsibility of the parent to provide transportation of the student home after school.
- C. Early dismissal may become necessary due to the inclement weather
 - i. The Superintendent or designee will be notified as early as possible with information necessitating the early dismissal.
 - ii. The Superintendent will make the determination to call for an early dismissal.

Bloomfield Transportation Policy (Parent)

- iii. The normal schedules will be set back two hours.
- iv. The school messaging system will be implemented.
- v. Radio and television stations will be notified.

6. Per Capita Feeder Routes

- A. Based on budget, the local board may provide per capita or per mile reimbursement to a parent or guardian in cases where regular bus transportation is impractical due to distance, road condition, or sparseness of population, or in cases where the local board has authorized a parent to receive reimbursement for travel costs incurred by having a student attend school outside the student's attendance zone.
- B. The Board of Education will approve all agreement(s) made with parents or guardians for per capita feeder services. The agreement(s) will define the term of service, the contract amount, and the responsibilities of the parent. It will be the responsibility of the parent or guardian to transport their student(s) to and/or from the nearest bus stop or home.
- C. A parent or guardian who has agreed to a per capita agreement must provide proof of insurance, current vehicle registration, and a valid driver's license to the Transportation Department and shall maintain the insurance for the term of the agreement. If the identity of the vehicle or driver changes, the Transportation Department must be notified. The district will not reimburse for transporting students during periods without insurance coverage.
- D. The Transportation Department will develop an accountability system to ensure that services are rendered according to the policy and agreement. Payment will not be made until services have been rendered.
- E. The contract will begin from the date the application is received at the Transportation Department.
- F. It is the parents/guardian's responsibility to obtain the application and submit it to the Transportation Department.
